

# RESHMA V H

## Profile

Motivated Software Developer with a strong foundation in full-stack development, specializing in Angular and modern web technologies. Recently completed an internship at Aitrich, where I gained hands-on experience in building dynamic applications and collaborating in agile environments. Eager to leverage my skills in developing user-friendly solutions and committed to continuous learning and innovation in software development.

## Work Experience

2012

-

2014

### NA Model school, Kasaragod

Computer Application Teacher

- Collaborative Teamwork: Worked with fellow educators to design and implement interdisciplinary projects, fostering a cohesive learning environment.
- Curriculum Development: Developed engaging lesson plans and educational materials that catered to diverse learning styles and abilities.

## Carrer Objective

- Dedicated and detail-oriented full-stack software developer seeking to leverage my skills in Angular and backend technologies to contribute to innovative projects. Passionate about developing efficient and user-friendly applications, with a commitment to continuous learning and collaboration within a dynamic team environment.

## Projects

- Job Portal System
- Role: Full-Stack Developer
- Developed the Job Provider section using Angular for the front end, creating a user-friendly interface for employers to post job listings and manage applications.
- Integrated SQL for the backend to efficiently handle data storage and retrieval, ensuring seamless communication between the front end and back end.
- Collaborated with team members to implement features such as user authentication, job search functionality, and application tracking.
